**Confident System Performance**

2

**New System, Smart Workflow**

3

**Various Diagnostic Applications**

4

**Unique Marketing Competence**

# Confident System Performance

**SonoScape**  
Caring for Life through Innovation

• Ergonomic Design

• Advanced Technologies

## Two transducer holders

- Increases satisfaction for operators

## 15 crystal high definition LCD

- Provides clear image from any angle

## Standardized PC keyboard

- Enhance the input efficiency

# Confident System Performance

• Ergonomic Design

• Advanced Technologies

## Two transducer sockets

- Relieves the trouble of changing transducer frequently

## Abundant connection interfaces

- Svideo, VGA, Video, LAN, Print, Audio, ECG, USB, DICOM 3

## Built-in Li-ion Battery

- Ensures the stable diagnosis more than one and a half hour

# Confident System Performance

**SonoScape**  
Caring for Life through Innovation

• Ergonomic Design

• Advanced Technologies

*Convertible with high mobility*

# Confident System Performance

• Ergonomic Design

• Advanced Technologies

**Slim and compact trolley design**

**Four holders on-board**

**Transducer cable holders**

**Standby Transducer Container**

● High mobility with versatile functions and superb design enable the operation more convenient and faster

# Confident System Performance

• Ergonomic Design

• Advanced Technologies

## Reliable 2D Image and Color Sensitivity

**Unique Marketing Competence**

# New System, Smart Workflow

- Smart Patient File Management
- Full Data Solutions
- Flexible user-defined functions

• S2 is integrated with a whole new file management platform; it offers complete data storage/transmission solution and data management functions. The smart workflow will help you work smart.

## Flexible user-defined functions

- Fully customized work settings for data table/graph, function keys, icons, formulas, measurements, report layout.....
- Totally based on your own working style and habit

1

**Confident System Performance**

2

**New System, Smart Workflow**

3

**Various Diagnostic Applications**

4

**Unique Marketing Competence**

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

• Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

## ***Compact Design***

***Capable of various clinical solutions***

- **General Practice: Abdominal, OB, GYN, Vascular, Urology, Small parts**
- **Support linear, convex, micro-convex, phased array, transrectal, transvaginal transducers**

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

• Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

## Radiology Application

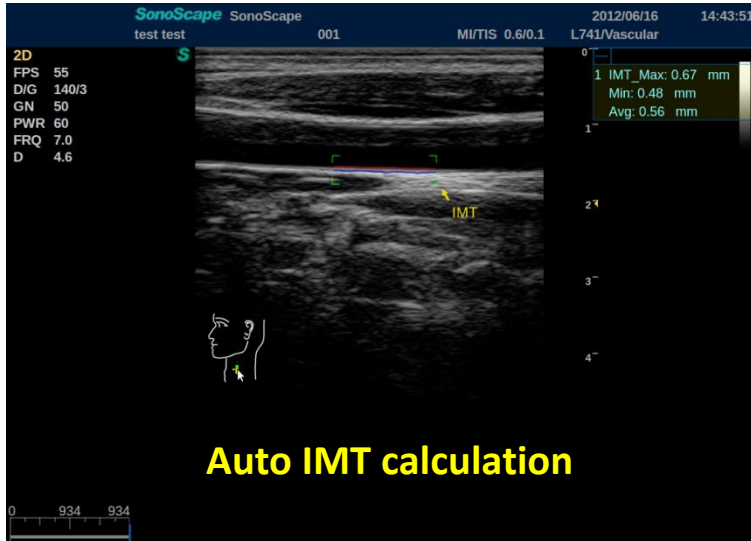

- **A wide range of transducers**
  - Phased, Convex, Linear, Endocavity, L-shape intraoperative
  - Frequency range from 2 to 15MHz
- **Complete Imaging Technology**
  - Panoramic Imaging,
  - Trapezoidal Imaging
  - Compound Imaging
  - Micro-Scan
  - Tissue Harmonic Imaging

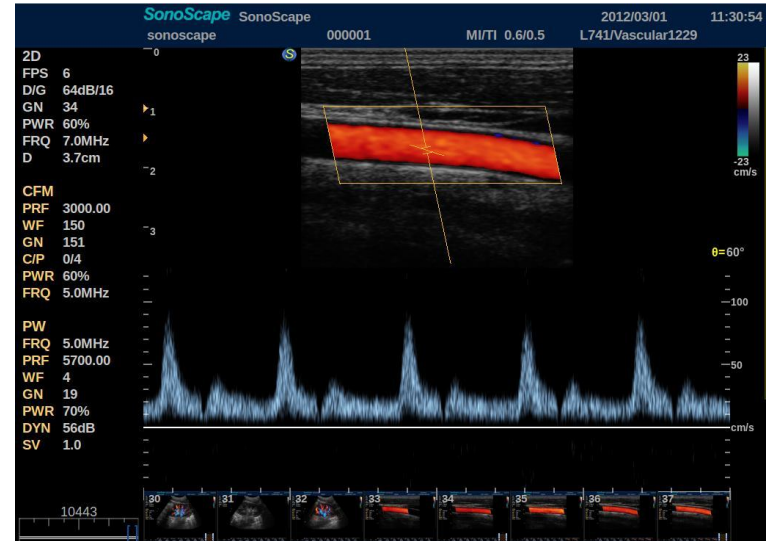

# Various Diagnostic Applications

- Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

**Auto IMT calculation**

• **Image Quality**  
-Supreme 2D, Doppler sensitivity

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

• Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

## OB/GYN Application

- **Professional transducers:**

- Transvaginal: 135°
- Temp-detect technology
- OB/Gyn biopsy guide
- Volumetric transducer VC6-2

- **Powerful 4D Imaging**

- **Professional OB/GYN measurement packages**

Measurement Methods: Hadlock, Jeanty, Kurtz, Hansmann, Nelson, Tokyo, etc  
**User-definable OB formula and shortcut keys** make the diagnosis more efficient for doctors all over the world.

# Various Diagnostic Applications

- Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

• Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

## Cardiology Application

- **Professional Cardiac transducers:**
  - High Frequency Phased Array
  - Low Frequency Phased Array
  - Micro-convex
- **Powerful Cardiac Software**
  - Imaging mode: PW/Color M/ Steer M
  - Real time Flow Calculation
  - Cardiac Software Measurement Package
  - Shortcut keys for Cardiac measurement

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

- Radiology
- OB/GYN
- Cardiology
- Emergency/ICU/Anesthesia

# Various Diagnostic Applications

- Radiology
- OB/GYN
- Cardiology
- Emergency/ICU/Anesthesia

# Various Diagnostic Applications

**SonoScape**  
Caring for Life through Innovation

• Radiology • OB/GYN • Cardiology • Emergency/ICU/Anesthesia

## Emergency/ICU/Anesthesia Application

- **Ergonomics**
  - 15 inch high resolution LCD
  - 2 transducer sockets
  - Slim and compact system
- **Easy to use**
  - Quick operation with one-button functions
  - User definable functions
- **Transducers for specialized Application**
  - 15MHz Linear for Peripheral anesthesia, CVC, Musculoskeletal
  - Wide band phased array and micro-convex for Cardiac
