

# SpiroScout

## Ultrasonic Spirometer

Your ultrasound based solution for the diagnose of obstructive and restrictive pulmonary diseases

### Main benefits

- Calibration and Maintenance Free for a reduced ownership cost
- ATS Compliant with full value tables (FVC, SVC, Flow/ Volume Loops, Pre-Post Tests)
- Exclusive Mouthpieces that will increase your consumables business
- User Friendly, EMR Compatible, PC Based Technology with a shorter learning curve
- Incentive screens for Pediatric through Geriatric application
- CPT Codes provide a fast return of investment

**SpiroScout is the result of extensive studies and tests, in the pursuit of perfection to facilitate and optimize the work of the doctor**

### Why do Spirometry testing?

- Cardiopulmonary diseases occupy the 1<sup>st</sup> cause of death in the USA, among them COPD (Chronic Obstructive Pulmonary Disease) is the 3<sup>rd</sup> cause of death, and Asthma is the 1<sup>st</sup> cause of school absenteeism.
- The only way you can diagnose COPD in Primary Care is through Spirometry.
- The safest way to diagnose asthma is through spirometry
- The easiest way to manage these pathologies is through follow up spirometry tests
- Spirometry is a simple reliable procedure that will allow for a better care of Chronic Pulmonary patients
